

MILLE MIGLIA 2016. THE OFFICIAL BOOK

It is the only volume that **reports about the 34th reenactment edition** of the historical **Mille Miglia**, held on 19-22 May 2016.

Commonly known as **the "most beautiful race in the world"**, the Mille Miglia came to life in 1927 as a high speed 1000 mile race from Brescia to Rome and back and continued so until 1957. After a break of 20 years, it moved back as a matchless regularity race along the beautiful Italian routes which recurs every year.

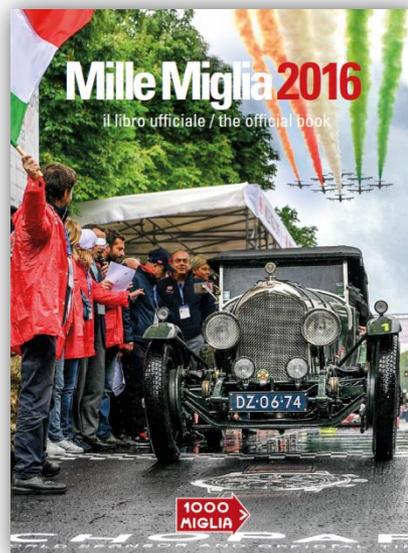

A **legendary race** that is nowadays a **great sporting competition** and especially an **important cultural event**, featuring hundreds of **rare classic cars** driving through the **unique scenery and heritage of Italy**.

A **look back** at the Mille Miglia of **1936** and **1956** and the respective **victories of Tonino Brivio and Eugenio Castellotti**, a section about **the Mille Miglia landscapes** and a **full report of the race** with in-depth information, plus the **photographs of all the cars** that have participated in the race and collateral initiatives: these are the **main topics** of this new release.

The quality of the content and the look of the volume make this book a **truly priceless and collectible item**, which cannot be missed by those who had the **privilege of taking part in the Mille Miglia 2016**, as well as by all the **enthusiasts for the Red Arrow race**. Moreover, it is an **ideal excellent gift** for friends, clients and business partners.

For a minimum of **10 copies**, the **book** can be also **customized** at an additional cost, in the following **two ways**:

- a) use of a specific photograph of one's own car participating in the Mille Miglia 2016 or company logo on the dust cover
- b) private insert as the opening page including small image and/or a brief text or dedication
